

## ***VascuTouch / Pelleve***

(15 min treatment time) ..... \$85.00

A radiofrequency system which will quickly remove unsightly facial and body growths caused by sun damage, genetics and aging. Used for treatments of skin tags, cystic acne, clogged pores, milia, enlarged sebaceous glands, brown waxy skin growth, small fibromas, under eye syringomas, small facial capillaries and cherry angiomas. Topical or injectable anesthetics may be used.
